TWO ROBBERIES IN DAYLIGHT

Grocery Store and Apartment
Entered by Thieves

LOSS IS MORE THAN \$300

Two Are Caught in Police
Dragnet in Search

Burglars at the Bocgan grocery looted a cigar box in which the money was kept. Change in the box, amounting to nearly \$20, was left behind and only paper money and silver dollars taken after entrance had been gained in the store by removing the glass from a rear window.

Robbery was perpetrated sometime at noon as Bocgan locked the store and went out to lunch and also to buy some provisions.

Upon his return he discovered that the rear window had been broken and a connecting door between the storeroom and a rear room had been forced. The money was kept in the rear room, which at times is used as sleeping quarters.

Those named were:

WATCH GONE

Police investigated the robbery and shortly after their departure, after looking over the grounds, Bocgan discovered that a 20-jewel watch had been taken from the rear room from a hiding place which evidently had been known to the store breakers.

While workmen were repairing the Phoenix apta Tuesday the apartment used by Mrs. J. Berline was entered and robbed of valuables. A black pocketbook on a dresser with three \$1 bills and one \$5 bill was reported stolen along with a diamond ring valued at \$125, a \$25 wrist watch and a \$15 ring.

In the investigations that followed police picked up several suspects who were found acting suspiciously. Two of them, Charles Brown, 513 W. North-st, and Earl Lucas, 709 W. Eureka-st, were taken near the Graham Ice Cream factory. Upon search at headquarters a pistol was found on Lucas and police are to hold him to a charge of carrying concealed weapons. Brown is to be questioned by police to determine if there is a possibility that he might be one of the plotters who was seen Tuesday night near the home of C. C. Smith, 805 N. Elizabeth-st.

With report of the grocery store and apartment robbery, police received their night automobile theft report. Carey Park, Conroy, reported that his Ford was stolen from W. North-st. Police notified surrounding towns of the theft and gave a description of the missing automobile.

ENGLISH IN SCHOOLS

WARSAW—The Polish ministry of education has decided to introduce the teaching of English into most of the schools. French and German are at present taught. It has been decided either to add a third class in English, or to replace German by English.

RECEIVE DEGREES

ATHENS—Three hundred and ninety-six students received degrees at Ohio University.

(Continued on Page Two)

Offenhauer To Get School Job

CHAIRMAN
ACTS OF BOARD
ARE SEEN AS
FORECAST

Central High School Principal
Given Two Year Term

MENTOR TO BE 'AVAILABLE'
Routine Business Is Transacted
at Regular Meeting

VIRTUAL SELECTION OF PROF. R. E. OFFENHAUER, of Central high school, as superintendent of the Lima school system following either the resignation or the expiration of the term of Supt. J. E. Collins was seen at the meeting of the board of education Tuesday night. Offenhauer was hired by the board, on a vote of three to two, for a period of two years. This will hold him in office until after Collins' term has expired and at the same time will make him available should Collins resign before time.

An unsigned recommendation of the committee on appointments was presented to the board asking that Offenhauer's term be two years instead of one year as is customary in the hiring of teachers under the rank of superintendent.

Ralph Austin, holdover member, asked members of the board why Offenhauer should be hired for two years when it had been customary to hire principals for the term of one year only.

ACT EXPLAINED

DR. R. A. Buchanan, president of the board and leader of the majority bloc, explained that the majority had decided that they wanted Offenhauer in office until after the term of Superintendent Collins had expired. He intimated that the majority feared that if Offenhauer was not hired for two years he might not be available when needed should Collins fill out his contract and full term.

Members Austin and Homer Hughes, who are the holdover members of the board, and are known to be opposed to Offenhauer as superintendent, stated that the two year term will keep him in office until after they are no longer with the board. They opposed the hiring of Offenhauer and Dr. Buchanan, J. F. Judkins and L. G. May were favorable.

Eight teachers whose names were held up for further consideration two weeks ago were appointed by a vote of three to two, Buchanan, Judkins and May favoring and Austin and Hughes opposing.

GRAHAM NAMED

C. K. Graham, principal of South high school and head of the science department, succeeded G. E. Raudenbush, resigned. Amy L. Vanderve, principal at Horace Mann school.

DRUSILLA M. REILLY, teacher at Central high school, Ollie Brick, Helen Shanahan, Anna Smith, Marguerite Coolahan and Teresa Gray.

Hughes made it plain, however,

that the vote against all of the teachers, with the exception of Offenhauer, was as a protest against the alleged illegal method adopted by the board and not because they believed the teachers to be incompetent.

Resignations of Austin and Hughes, which have been expected following assertions by them that minutes of a previous meeting had been changed to show that Superintendent Collins had appointed a list of teachers rather than presented them, were not handed to the board.

GET SUPPORT

Support by the public has been accorded Austin and Hughes in their disagreement with the majority section of the board, it was learned, and the two members have decided to remain. It is probable they will serve out their full terms, both members saying they have no intention of resigning at the present time.

Several persons sitting in the gallery at the meeting are understood to be favored by the present board for the substitute places and it is believed they would have been appointed and sworn in had Austin and Hughes resigned at the meeting.

Among those who have been mentioned for the places are James Jolley, a former candidate for a place on the board, and H. H. Kettler, furniture man. Both were present at the meeting. Wait DeKalb, St., who has also been mentioned on the street as a possible member, was not present.

Superintendent Collins was out of the city and could not attend the meeting. It is understood he is in Oxford attending the Miami university commencement.

He is a graduate of Miami college at Miami and has lived most of his life in the Mississippi service men on his part of the city.

HEADQUARTERS—BUTLER SUCCEEDS ADAMS

BOY FALLS INTO OLD QUARRY

Youth Going Down for Third Time When Rescued

John Downey, five-year-old son of Mr. and Mrs. Thomas Downey, of 639 S. Elizabeth-st, was saved from drowning late Tuesday afternoon by two boy companions, when he fell into an abandoned stone quarry on S. Collett-st.

The boy, accompanied by his brother, Thomas Downey, 10, Leonard Elterman, 11, and two smaller boys, was playing along the banks of the quarry. The older youths started home and were about a block away when they were attracted by screams. Realizing what had happened, they ran back to the bank and pulled the boy out just as he was about to go down for the third time.

According to the other children, John was throwing boards into the water. Stepping too near the edge, he lost his balance and fell in head first. He managed to paddle to the edge of the water and in another second would have gone down for the last time.

He was removed to his home by a passing motorist. He is suffering from exposure but his condition was reported improved Wednesday.

BOY IS INJURED

Morris Johnson Escapes Death Under Auto Wheels

Morris Johnson, 19, of 153 N. Birch-av. He suffered bruises to when struck at 6:30 p.m. Tuesday by an automobile driven west on High-st. by A. K. Gaston, 602 Birch-av. He suffered bruises to his head and shoulders.

The boy ran in front of the machine which was traveling about 10 miles an hour. The front right wheel hit him and knocked him to the pavement. Gaston stopped the automobile as soon as possible. The injured boy was taken into the Chevrolet garage and from there Gaston took him to his home.

Examination by a physician showed that the boy suffered severe bruises to his shoulder, side and head. His condition is not serious.

TOLEDO—When he attempted to see if his canoe would tip over Lester Schimeyer, 16, was drowned.

STORM OVER PLATFORM BREAKS IN CONVENTION

Bitter Fight Precipitated by World Court Plank—Strong Opposition to Coolidge Plan Is Led by Senators Watson and Beveridge

Provisions of Document Agreed on by Committee In All Night Session—Permanent Organization Is Effected at Second Sitting

(BULLETIN)
CLEVELAND—(By United Press)—The Republican convention broke wide open early this afternoon into a real fighting session with the storm centered in the resolutions committee which is wrestling with the platform to be presented tonight.

MUNICIPAL AUDITORIUM, CLEVELAND—(By United Press)—The Republican platform, completed after an all-night struggle, faced a bitter fight today over the world court plank, threatening to crash the harmony of the convention.

Former Senator Albert J. Beveridge, of Indiana, was the leader of the movement against the plank adopted tentatively endorsing the Harding-Hughes plan for American adherence to the world tribunal.

A strong faction, led by Senators Watson, Indiana, and Beveridge fought all night against the flat declaration that it is demanded by the Coolidge managers. When they were finally defeated Beveridge announced that he would carry the fight to the floor of the convention.

A spectacular debate between Beveridge recognized as one of the foremost orators in the country, and Charles Beecher Warren, chairman of the resolutions committee, was in prospect as the convention assembled. Beveridge and Warren were in a determined fighting mood, and as they entered the hall, Beveridge took his place with the Indiana delegation and Warren to preside over the meeting of the resolutions committee to ratify the final draft of the platform.

It was therefore with sense of keen expectation that the delegates came to order at the fall of the gavel shortly after 11 o'clock.

MONDELL TAKES GAVEL

The temporary chairman, Theodore Burton, his voice suffering from the efforts of his long keynote address yesterday called for the singing of the Star Spangled Banner, and the second day's business was under way.

The permanent organization with Frank W. Mondell of Wyoming as permanent chairman was installed. The convention rules were adopted and the official roll of delegates perfected.

Representative Graham, Pennsylvania, was introduced and presented a resolution of tribute for dispatch to "Uncle Joe" Cannon, on the attainment of his 88th anniversary.

The resolution passed amidst loud applause. This was the first convention Uncle Joe has missed in many years.

The chairman then called on the band to fill in with patriotic airs. A short lapse of time occasioned by delay of the committee on credentials to complete its report for submission to the convention.

Senator William B. McKinley of Illinois, chairman of the committee, was recognized to present the report.

LOUD DEMONSTRATION

As in the case of Theodore Burton's demand yesterday for a Republican congress that would stand united, the convention rose in a loud demonstration when Chairman Mondell called for a congress of Republicans in fact as well as in name.

"Let us not criticize a man for not leading," he said, "when there are men who call themselves Republicans, but who will not follow."

Senator Lodge, seated in the front row of the Massachusetts delegation immediately in front of the rostrum, appeared unaffected by the continued references of other girl of any other time speakers to failure of Republicans in congress to follow the leadership of the president. He smiled broadly at the shafts directed at Republicans who overrode the president's wishes on the bonus and other legislation and joined in the applause by pounding on the floor with his umbrella.

Mondell, assuming the chairmanship introduced Paul H. B. Cudahy, attorney for Harry M. Daubner in the Senate committee, to present the report of the committee on rules and order of business.

The girl of today is something to be proud of," said Dr. Katherine D. Marion, retiring president of the National Medical Women's Association, meeting in connection with the American Medical Association.

The modern girl is the healthiest, handsomest girl the world over has known, she said, "and I wouldn't exchange the maiden flapper as you call her, for any other girl of any other time." Girls are to be defended, creation knitting lace up in tight corsets and almost never indulged in any outdoor exercise.

The girl of today who swims, plays golf, bobs her hair, goes without corsets, wears flat heels—takes long hikes is something to be mighty proud of. Chaperones are extinct, but only because they are no longer needed. The modern girl can take care of herself. Her mind is as healthy as her body and her heart, and independence protect her."

HOSPITAL COMMISSION TO BE SELECTED SOON

Action will be taken within the next few days by the city commission to appoint a commission to oversee the drafting of preliminary plans for the erection of the new \$600,000 city hospital, City Manager C. A. Bingham stated Wednesday.

It was definitely decided Monday night that the institution will be erected on the site proposed by F. E. Harmon, on S. Collett-st., south of Faurot-av, and the next step is the appointment of the commission, Bingham stated.

STRIKE DETAILS RETOLD

Hines Trial Now on Third Day at Ottawa

MANY WITNESSES HEARD

Defendant to Take Stand on Thursday, Belief

OTTAWA — (Special) — Happenings during the strike of shopmen in Lima from July to September, 1922, were recounted here Wednesday in the trial of Otis Hines, on a charge of second degree murder.

Officers of the B. & O. railroad were called to the witness stand.

There were accounts of accidents and rumblings of general disorder, according to the testimony. Each told of events leading up to the time of the fatal shooting by Hines of Robert Hartman, Lima youth, on Sept. 9, 1922.

An additional number of witnesses were summoned Wednesday by the defense. Because of this fact, S. A. Armstrong, chief counsel for Hines, announced Wednesday that the negro would not be placed upon the witness stand to tell his story until Thursday.

MANY CALLED

Harold Cunningham, former mayor of Lima, testified Wednesday. Others who were called were Martin Hobin, F. Edison, O. E. Shrider and Martin Bishop, all officers of the railroad, in charge of strike movements.

Others who will be called to testify during the day are Harold J. Bjorkman, Charles Miller, George A. Stauffer, of Ottawa, United States marshal, Ward Taylor, former patrolman, R. L. Higgins, William W. Kramer, J. W. Stevens, in charge of maintenance of the B. & O., Clarence Mount, chief of Police T. A. Lanker, J. J. Hoke, Glen C. Webb, Rev. L. R. Mitchell, Capt. Peter McCown, R. B. Little, R. H. Morrison, R. J. Needels, Dr. J. C. Bradford, Stanley E. Toy and J. W. Patterson.

It is believed the trial will be as long drawn out as the original hearing in Lima, when a report by the jury was not received until 11:14 p. m. Friday night, following beginning of the trial on Monday.

FRANKS SLAYERS DENY GUILT

Leopold, Loeb Trial Date is Set for August 4

CHICAGO — By Associated Press—State's Attorney Crowe today won his first skirmish for an early trial of Nathan Leopold Jr. and Richard Loeb, confessed kidnappers and slayers of Robert Frank when the trial was set for August 4.

Both boys pleaded not guilty when arraigned before Chief Justice Caverly. Crowe demanded a speedy trial, asking July 15 as the date, but Attorneys Darrow and Benjamin Bachrach of the defense objected.

Judge Caverly then fixed July 21 to dispose of preliminary motions and set the trial for August 4. Defense counsel declared they did not believe it would be possible to be prepared for trial at that time but said that they would do everything possible to be ready, making the reservation, however, that if that were not possible they would then ask for more time.

A hint that a change of venue might be asked later was seen in Attorney Darrow's objections to the early date when he declared that there was no man in Chicago who would say that the case had not been prejudiced.

BANKER KILLED

Shot by Bandits in Holdup in Kentucky

CLINTONVILLE, Ky. — (By Associated Press) — Four armed bandits entered the Bank of Clintonville here today, shot and killed Frank Buchanan, a stockholder, when he resisted robbery and escaped without taking any money as Cashier Walter Gibson returned their fire.

NEW YORK — (By Associated Press) — Ten armed bandits today held up a United States customs truck, knocked the driver unconscious and escaped with 27 packages of precious stones, which were being transferred from the general postoffice in West 33rd street to the Appraiser's stores on Washington street.

OFFICERS ELECTED AT G. A. R. ENCAMPMENT

WARREN, O.—Rev. Edward Burdall, of Batavia, was elected department commander of the Grand Army of the Republic at its fifty-eighth annual encampment here today. Other officers elected included M. O. Messer, Warren, senior vice commander; John McClay, Columbus, junior vice commander; Rev. M. J. Shatz, Kent, department chaplain and Dr. W. H. Wellin, Worthington, medical director.

PRISON SENTENCES

DUBLIN — Free State magistrates are beginning to impose sentences of imprisonment instead of fine on the manufacturers of illicit spirits. The Civic Guard recently discovered a secret still on the top of Carkeney mountain in Donegal and captured four men. The place, they said, was a reclusive distillery. The four defendants got six months each.

SITE OF NEW \$600,000 CITY HOSPITAL

Above are views of the site the city has accepted for the new \$600,000 city hospital. It lies to the west of Collett-st and just south of Eurotav. In the picture at the top, taken from opposite the northeast corner of the site, is shown practically the full length of the lot. The street in the foreground is Collett-st. A line of trees will be noticed, running north and south. The hospital site extends west to these trees and south to the levee, a white line at the extreme left of the picture. This levee is along the bank of Haw Creek.

The picture at the bottom, taken from the northwest corner of the site, shows the fill along Collett-st with the dump along the street and at the right. The levee along the creek is seen as a white line at the extreme right of the picture. North Shore Drive will be opened along the levee later, according to present plans.

The fill along Collett-st gives an idea of the level of the site, which will require filling around the foundation of the building, according to plans.

G. O. P. HARMONY THREATENED

(Continued From Page One)

the committee voted to let it stand. There were threats at that time that the fight would be brought up on the floor of the convention.

Because the committee on resolutions was not yet ready to report, Charles D. Hilles moved that the convention recess until 8 o'clock this evening, when the platform was expected to be ready for presentation.

The motion was carried.

PLATFORM PLANS

The platform was presented to the full resolutions committee at 10 a. m. and will be presented to the convention by the full committee at about 3 p. m. according to present plans.

It is 6,000 words in length and is based upon the original Coolidge design of criticizing the recent congress. Here is a paraphrase of its provisions, as given to the United Press by an indisputable authority.

ECONOMY

A statement pointing to the accomplishments of the present administration with particular reference to reducing the number of government employees and conserving expenditures.

AGRICULTURE

A promise by the Republican party to restore the balance of economic conditions as between agriculture and industry. Reference is made to the McNary-Haugen price stabilizing measure which was killed in Congress under Mr. Coolidge's pressure. An endorsement of the emergency tariff act as being of assistance both to farmers and to industry.

WORLD COURT

A restatement of the Republican position against American entrance or adherence to league of nations. An expression that this government should enter some sort of international court of justice, with an added statement expressing belief in the Harding-Coolidge plan, with the Hughes reservations.

SECRET ORGANIZATIONS

A plank declaring that the guarantees of religious and political freedom as assured under the constitution must be protected. A plank specifically denouncing the Klan was voted down.

IMMIGRATION

Praise of the new restrictive immigration bill, with no mention of the recent international complications resulting from the Japanese exclusion provision.

SCANDALS

Condemnation of misfeasance and malfeasance in office, with a specific reference to the Senate investigations.

TAXATION

Belief is expressed that reduction of taxation should be based upon some plan more scientific than the new law. A call for reform in methods of taxation.

A declaration favoring the proposal for organization of a tax revision commission to work out with the state government some means for avoiding overlapping legislation.

VETERANS BUREAU

A demand that every possible care be afforded disabled veterans.

PROHIBITION

Pledges general law enforcement.

LAWS AND ORDER

A plea for orderly government.

PARTY LOYALTY

A declaration urging party regularity and harmony.

Senator Gooding, Idaho, Republican, and representative of a group of mild progressives, led the fight against the farm plan. He was aided by Senator Norbeck, South Dakota, Republican, who campaigned in his state for Hiram Johnson. Johnson was not a member of the committee, but he remained in the session until he and Gooding finally were beaten.

Announcement was made by Warren, however, that the platform was "unanimously" agreed

OFFENHAUER TO GET JOB

(Continued from Page One)

and conferring with school officials regarding his appointment as professor at the institution.

TEACHERS NAMED

Teachers appointed upon the recommendation of Supt. J. E. Collins were: Ruth Reed, Gayle Howey, Dorothy M. Faris, Jessie Staeger, Ethel M. Iske, Margaret Dines, Pauline Tilley and Joseph M. Dupere. The latter will serve as band director and will instruct the junior band besides the senior orchestra for Kenyon, who is one of the foremost progressives in the country today. As it is, the big turnover of the convention may come with a revolt of middle-of-the-road progressives turning into a stampede for the Iowa Judge. Nomination of Kenyon is openly admitted by LaFollette forces to be the one thing they fear in the interest of LaFollette's forthcoming independent campaign for the presidency.

Dissonance first cropped up in open hearings of full committees. Gathered about in the big council chambers at the city hall, the 52 committees started in with a determination to finish the platform before the convention opened today, no matter what happened.

Warren, Watson, Fess, of Ohio, and others who have valets at home, sat about munching sandwiches and listening to the arguments. On thru the hot and sticky afternoon, they stuck to the hearings until they were closed at 6 p. m.

The motion was carried.

OFFENHAUER TO GET JOB

(Continued from Page One)

him offers for major positions when he retired from the army and radio fans know him for his present work in the radio field.

Were it not for the fact that the Coolidge board of strategy has decreed an out-and-out conservative party, there would be a better chance for Kenyon, who is one of the foremost progressives in the country today. As it is, the big turnover of the convention may come with a revolt of middle-of-the-road progressives turning into a stampede for the Iowa Judge. Nomination of Kenyon is openly admitted by LaFollette forces to be the one thing they fear in the interest of LaFollette's forthcoming independent campaign for the presidency.

The postmaster contend that revenues would be increased with the return of the two-cent rate. He pointed out that one could send a letter from San Francisco to London for two cents, while it cost three cents to send a letter from Victoria to Vancouver, B. C.

Two indictments were returned against each of the four men, charging that a four and six inch base was used in building the road instead of the eight inch base as specified in the contract and that an inferior grade of sand was used.

A separate indictment was returned against Weaver, charging him with presenting a false and fraudulent bill for the payment of the road and for falsely certifying the job to be correct as to the specifications.

The postmaster contend that the post office revenue cut will be \$630. The petition also alleges that the amount was loaned to Supt. C. Thomas and W. M. Thomas on June 6, 1922 and a mortgage was taken on land in Peerless addition near this city.

The defense rested Thursday afternoon and Wednesday morning's session was given over to rebuttal by the state. The state has authority to place witnesses on the stand to attempt to tear down the testimony of defense witnesses.

FRENCH CHIEF IS FORCED OUT

Resignation is handed in by President Millerand.

DEMANDED BY LEFT PARTY

Aims declared out of sympathy with Majority.

PARIS — (By Associated Press) Signed today.

The new parliament, in favor of the left, has accomplished its announced object of forcing Millerand from the Elysee Palace. His resignation was read before both houses of parliament this afternoon.

Until the election of a new chief executive by a joint meeting of the chamber and senate Friday the executive power will be wielded by the acting minister under Francois-Marsal.

Millerand is the sixth of the eleven presidents of the third republic to leave by resigning, but in no previous case has the motive been so bringing the event about, or so abrupt.

Edouard Herriot, as head of the new majority of the 11th emerging from the recent parliamentary elections, refused to accept Millerand's offer of the premiership. The new majority demanded that the president resign as he was not in sympathy with it.

When the Versailles convention Friday elected Millerand's successor, the Francois Marsal minister will resign.

Saturday is expected to see Herriot again called to the Elysee Palace and tendered an invitation to form a ministry, which this time he will accept with alacrity.

OH, SHE DANCED!

Now She'll Dance "In Mother's Kitchen"

HOUSTON, Tex. — (Special) — Henrietta Strawn 17 just couldn't keep still. She'd dance while she worked, shimmy while she rested.

Her life was in rhythm. That's why she was fired from two department stores.

So she capitalized her vibrant being and landed a job in a vaudeville company.

Parents heard about it and started off with her to her home in Fort Worth.

She pulled her trunk off the train at a flag station half way there and got the next train back to Houston.

But her parents followed, and now she's home in Fort Worth waltzing as she does housework awaiting her legal majority—and freedom.

DAUGHERTY IS VICTIM OF PTOMAINE POISONING

CLEVELAND — Harry M. Daugherty, formerly United States attorney general and now a delegate at large to the Republican national convention, had recovered today from an attack of ptomaine poisoning that caused cancellation of a business meeting of the Ohio delegation last night because he could not attend.

Reports that Daugherty was seriously ill were denied by his immediate associates.

They said he would participate in today's activities of his delegation.

HERBERT HOOVER, JR., IS ENGAGED TO WED

SAN FRANCISCO — The engagement of Miss Margaret Watson, daughter of Mr. and Mrs. Douglas S. Watson of San Francisco, and Herbert Hoover, Jr., was announced yesterday. Both are junior students at Stanford University, where Miss Watson is president of the Women's Athletic Association and Hoover is vice-president of the student body.

PLANT DESTROYED

WELLSVILLE — The plant of the Royal Electric Company here was destroyed by fire of unknown origin. Damage estimated at \$25,000.

MAXWELL HOUSE Coffee

SO much of care and skill goes into the making of Maxwell House that it would be a pity for any of its perfection to be wasted before it reaches your cup. Hence the sealed tins that keep it always fresh.

Elks Invite Nominees and Delegates to Circus

An invitation to attend the Elks Charity Circus and Congress of outdoor entertainers to be held soon was extended to all nominees and delegates to the Republican national convention Wednesday by the local executive chairman.

The following telegram was sent to John F. Galvin, delegate from the Fourth congressional district:

(Signed) L. H. Cunningham, Executive Chairman

VICTORY IS SCORED BY BOND BUYING AGENCIES

COLUMBUS — (By United Press) — Bond buying agencies in Ohio won a victory when the supreme court held unconstitutional the section of the law which requires political subdivisions to submit their bond issues to the state industrial commission for purchase at par and accrued interest before putting them into the open market.

The commission has in the state treasury millions of dollars worth of such bonds, portions of which were purchased under a method declared unconstitutional.

Decision came from the case of the City of East Cleveland versus Charles C. Frazee, director of East Cleveland finance, which alleges that cities were often forced to sell their bonds to the commission when they might have got more from them in open market.

Convention Sidelights

HARROD MAN IS IN CONTEST

Many Are Filing as Closing Time Approaches

CLEVELAND — (By Associated Press) — Prices on tickets to the Republican national convention, which have fallen into the hands of scalpers, suffered a severe setback, with peddlers making efforts to bolster up the market with whispered stories of "surprises" yet in store.

Some brought as high as \$150 Monday. Today it was possible to buy one good for the rest of the convention for \$10 while one was reported for a one day's session at \$5.

A portrait of the late President Harding, finished on the eve of his last trip from Washington, is attracting much attention in a Euclid avenue department store window.

"The reason we can't get anyone to be a vice president is the vice president doesn't get enough money to keep a wife in Washington society," is the way one woman explained the situation to another in the Coolidge headquarters.

"This is the open season for weird claims and wild assertions on the part of our friends, the political enemy. Only recently emerged from beneath the political landslide of four years ago,

they attempt to appear as confident as they were just before being engulfed in that overwhelming catastrophe.

"In the moments they can spare from their fierce family feuds and rivalries, they make a pretense of assuming to believe that they have successfully laid down a smoke screen thru which their transparent partisan purposes shall not be discovered, and in the contemplation of which all their sins of omission and commission of discredited policies and discredited administration shall be overlooked and forgotten.

The doorkeepers couldn't resist the color combination, and the glee club slipped into the hall and serenaded the convention. The club won the \$1,000 Welsh Eisteddfod prize in a recent contest at Youngstown for choirs and glee clubs from the central states.

Lord Kenyon, pro-chancellor of the University of Wales, will attend tomorrow's session of the convention as a guest of Samuel Mather, Cleveland capitalist. Saturday he will accompany Senator George Wharton Pepper of Pennsylvania, Secretary of the Treasury Mellon and Mr. Mather to Gambier, to attend the centennial celebration of Kenyon College, in connection with commencement exercises. Lord Kenyon is a descendant of one of the titled English families which endowed Kenyon College.

One Bad Apple Spoils All In The Barrel

Every one knows how one bad apple in the barrel may be the means of causing all those about it to spoil.

It is very often the same way regarding contagious diseases.

One person may through carelessness or failure to secure proper medical attention be the means of spreading the contagion to the whole neighborhood.

Every epidemic has its beginning in a source which could be localized and prevented if properly combated in its early stages.

Not only is it advisable to be on the alert as to your own health, but also to use your best efforts to see what those about you do likewise.

Give Us Representation

Citizens of Lima who are paying the bulk of taxes in this county are awaking to the fact that they have no representation on the most important board in the county so far as the expenditure of money is concerned—the board of county commissioners.

It has been customary in the past to elect men from the rural districts to this body, there being no good reason for the precedent. So far as the city is concerned, it is very bad practice, leaving the municipality which pays more into the county coffers than does all the balance of the county, without any voice in the matter of spending the money.

In the past, county commissioners, bound by law to build certain bridges and pave certain streets in the city, as well as repair thorofares under their supervision, have done so grudgingly, if at all. In most cases there have been arguments between city and county officials and after a certain amount of wrangling, the work would be done.

This condition should not exist. There should be harmony between the city and county for each part of the other and both have interests in common. If the law says that the county commissioners shall pave a street or build a bridge, there should be no battling over the affair. Especially when the city is paying more of the bill than anyone else.

In the past the county commissioners have done as little inside the city as possible. They have had no particular interest in Lima and have naturally turned their attention to the outside where they were interested financially and otherwise. This has operated against the city.

We believe the taxpayers of Lima will elect at least one commissioner from this city next fall. We would not favor the city "hogging" the board as the county might be charged with doing, for we believe better results can be obtained by having men from both city and county. At least one commissioner should be named from the municipality. And in picking men for this important body, taxpayers should pay particular attention to the type of men they vote for, selecting only those who are capable of handling a big business in a big way, for that is what Allen-co's administration amounts to now.

Never Ending Troubles

The butcher who keeps his hand on the scales and weighs it in with the steak may be known to many of you. And, no doubt, you comment about the crookedness and petty cheating of this day and age when things are going to the bow-wows.

Things, by the way, are always going to the bow-wows—in all generations, all centuries.

More than 400 years ago a famous French preacher named Oliver Maillard rose up in his pulpit and pronounced a curse on "those who, when they weigh, press down the scales with their finger."

Preacher Maillard took a rap at "tavern-keepers who sophisticate and mingle wine." . . . And after four centuries most bootleggers are doing the same thing—adulterating liquor.

Maillard denounced "butchers who blow up their meat, and who mix hog's lard with the fat of their meat." . . . The popular trick in 1924 is to feed the fowl a lot of corn just before killing it or pour gravel in its gullet to make it weigh heavier.

The more a man studies the histories of long-departed generations, the more impressed he is that people have the same basic troubles no matter in what century they live.

Troubles have no end. They seem to be perpetual. True, there is a never-ending fight against these chronic troubles. But the troubles persist despite no end of denunciation and indignation.

Are we really getting anywhere, thru the ages? Or are we just kidding ourselves?

Nature doesn't want us to have things easy. Occasionally it may seem that life is a jail, tortuous part of a sentence we are serving for sins of a previous existence.

The real answer, of course, is that troubles and obstacles are sent to develop and bring out the best that's in us.

Preacher Maillard was simply wasting his breath.

One of my many queer notions about health is that we should never keep a clinical thermometer around the house and never mind our temperature unless the doctor insists on knowing precisely what it may be at a given time, and then let the nurse take it and keep it to herself and the doctor. I have a crude fancy that it never helps much to know what the body temperature is. It may be necessary for the doctor to measure the temperature in certain cases, but I mean it never does the layman any good to monkey with a thermometer. On the contrary, the unwise use of a clinical thermometer in the home causes a great deal of unnecessary worry and alarm. I am sure it is sometimes good for health, a little worry, provided the worrying is in the right direction. But worrying over a few points of variation in the temperature of the body is worrying in the wrong direction.

The temperature of cold blooded animals is below that of the surrounding air—the reptiles, amphibia and fishes. The temperature of warm blooded animals is above that of the surrounding air—birds, mammals (including man). But the body temperature of birds and mammals is independent of the temperature of the air, or practically independent of it whereas the body temperature of reptiles, amphibia and fishes changes within wide limits, with changes of the temperature of the surrounding environment. Their temperature is almost as low as the water or air or earth around them in the winter, and almost as high as the temperature of the surroundings in summer. Not so with birds, mammals and man particularly. In the warm blood-

ed animals more heat is produced by metabolism, these groups having a relatively active oxidation process, the vital functions which maintain constant heat production. Likewise they have a heat regulating apparatus or mechanism which the cold blooded animals lack. Only the hibernating animals, which are warm blooded, have a poorly developed heat regulating apparatus; in the winter time their temperature goes far below the normal as their metabolism or vital processes or oxidation slows.

To a very limited extent the metabolic process in man is slowed down by cold weather and accelerated by warm weather, at least in certain individuals of the reptilian or fishy temperament, if I may say so without any offense intended. In such individuals perhaps a few fractions of a degree Fahrenheit one way or the

other from the normal average temperature may be ascribed to the influence of the surrounding air temperature. It is a matter of no importance in itself, so far as health is concerned.

The temperature of the human animal, as my veterinary friend would say, shows a normal variation of about two degrees Fahrenheit between the early hours of the morning and the late afternoon—physiological fact too often ignored in households where this bad habit of taking the temperature prevails.

Individuals who are active muscularly have a slightly higher temperature than sedentary individuals as a general rule.

LIMA NEWS HEALTH SERVICE

By DR. WILLIAM BRADY

TEMPERATURE OF THE BODY

A correspondent who evidently has the unhealthy habit of taking her own temperature, notices that when the atmosphere is cool her temperature is around 98.2 or 98.4, and when the atmosphere is warm, say 95 degrees, her temperature is higher, too, as much as 95.5 degrees. She says it seems to be different with other people and she wonders whether it is a personal idiosyncrasy or an indication of anything wrong.

One of my many queer notions about health is that we should never keep a clinical thermometer around the house and never mind our temperature unless the doctor insists on knowing precisely what it may be at a given time, and then let the nurse take it and keep it to herself and the doctor. I have a crude fancy that it never helps much to know what the body temperature is. It may be necessary for the doctor to measure the temperature in certain cases, but I mean it never does the layman any good to monkey with a thermometer. On the contrary, the unwise use of a clinical thermometer in the home causes a great deal of unnecessary worry and alarm. I am sure it is sometimes good for health, a little worry, provided the worrying is in the right direction.

In such individuals perhaps a few fractions of a degree Fahrenheit one way or the

JUST FOLKS

BY EDGAR A. GUNDE

THE PRICE OF KNOWLEDGE

A college is a market place With desk and counter, chair and case,

Where teachers grave and teachers wise Display their wares to youthful eyes,

And sell their bits of truth pre-

dictive To all who'll come and pay the price.

Yet some are idle shoppers there: They fondle treasures old and rare,

And pass along and fail to buy. Thinking the cost is much too high.

Some for the cheaper bargains look,

Hoping to snatch from many a book.

Its store of knowledge, or of wit. Without the toil of reading it.

Whenever I'm in a college town And walk its campus up and down,

It seems to me that I can hear The tradesmen's voices ringing clear.

"Take this!" some wise professor cries;

"Here's conquest for the lad who buys!"

Here's power for all you'll dare to do.

Work hard and 'twill belong to you."

But some there are who laugh along

And some there are who think him wrong.

And some with curious minds believe.

That they can cheat and still achieve;

But wisdom foils each sharp device,

Who wants it has to pay the price.

LEMONS BLEACH THE SKIN WHITE

The only harmless way to bleach the skin white is to use the juice of two lemons with three ounces of Orchard White, which any druggist will supply for a few cents. Shake well in a bottle, and you have a whole quart pint of the most wonderful skin whitener, softener and beautifier. Massage this sweetly fragrant lemon bleach into the face, neck, arms and hands. It can not irritate. Famous stage beauties use it to bring that clear, youthful skin and rosy-white complexion, also as a freckle, sunburn and tan bleacher. You must mix this remarkable lotion yourself. It can not be bought ready to use because it acts best immediately after it is prepared.

PIMPLES ON FACE 2 YEARS

ITCHED AND BURNED LAST SLEEP. CATCUPA HEAL.

"My trouble began with pimples that covered my face. They were hard, large, and white and festered. The pimples itched and burned continually, and I lost a great deal of sleep. The trouble lasted about two years.

"I read an advertisement for Catcupa Soap and Ointment and sent for a free sample. It helped me so I purchased more and after using one box of Ointment and three cakes of Soap my skin became nice and smooth; I was healed." (Signed) Miss Nancy Scott, Silverwood, So. Dakota.

Society News

WEDDING IS BRILLIANT AFFAIR

Two hundred and fifty wedding guests attended the impressive ceremony at the Market Street Presbyterian church Tuesday afternoon at four-thirty o'clock, when Miss Ruth Parmenter, daughter of Mr. and Mrs. Robert Wm. Parmenter, 729 W. Spring-st., became the bride of Dr. Fred Leroy Mitchell of Globe, Ariz. Tall palms and spires were used to decorate the church and the effect was heightened by the white candles in the tall candelabra. Prior to the ceremony, Miss Nell Kreite played two organ numbers, "Salut D'Amour" by Elgar and "Love's Old Sweet Song."

Preceding the bridal party, a group of ten young women, all close friends of the bride, entered the church, singing Lohengrin's "Wedding Chorus," and proceeded to the altar. Members of the group, all of whom wore summer gowns of the pastel shades, with hats to match, and carried white-bound hymnals, were Mrs. Clarence Klinger, Mrs. Lyle Parmenter, Mrs. William Daniels, Mrs. Walter Rowlands, Mrs. Chester Ridgway, Missabel Bowsher, Miss Margaret Gregg, Miss Marguerite Krein, Miss Marguerite Moyer and Miss Merle Thompson.

The two ushers, Lyle Parmenter and T. S. Garrettson, entered the church first, followed by the two bridesmaids, Miss Helen Bower and Miss Josephine Garretson. Then came the maid of honor, Miss Gail Parmenter, a sister of the bride. Preceding the bride, who walked to the altar on the arm of her father, who gave her in marriage, were little Miss Jane Parmenter and little Miss Joan Horn of Cleve-

land.

The bride's gown was of white georgette, fashioned with long panels and trimmed with white ostrich feathers. Her hat was of white georgette with the ostrich feather trimmings, and she carried a large bouquet of bride roses, valley lilies and sweet-peas. The bride's attendants were gowned in the various shades of blue. Miss Parmenter wore a gown of powder blue georgette with the shadow embroidery, silver trimmed, and a picture hat of white braid, trimmed in the same shade of blue. Miss Bower wore a blue and rose figured de chine gown with a hat to match and Miss Garretson's gown was of powder blue, trimmed in ecru lace. Her hat was a bonnet-shaped straw, trimmed in blue velvet ribbons. The maid of honor and bridesmaids carried old fashioned bouquets of orchids, combined with the roses and valley lilies. The little flower girls were in white organdie and carried silver baskets filled with rose petals with which they made a pathway for the bride.

Rev. Samuel Haecker performed the single ring ceremony, at the close of which, the prayer "O Perfect Love" was sung by the group of young women. Miss Kreite then played Mendelssohn's Wedding March.

Assistant ushers were W. L. Parmenter, Walter Parmenter, Dr. Abner Jones, Val Kohl, Ray Schulz and George Morett of Springfield and Dr. John Chase of Dayton.

A reception was held at the Shawnee Country club, immediately following the ceremony. The bridal party, parents of the bride and Rev. and Mrs. Haecker received the guests in front of the fireplace in the large living room of the club house. Palms and spires again made the attractive decorations.

A stringed trio, composed of Mrs. Andrew Dimond, cellist, Mrs. Gale Dunton, violinist, and Mrs. Ralph Shridar, harpist, played during the reception and tea.

A buffet tea was served on the porch of the club, the table being artistically decorated with large silver baskets of red poinsettias. Those assisting in the dining room were Miss Marguerite Krein, Miss Azuba Blodgett, Miss Marie Sweeney, Miss Esther Roberts, Mrs. Eloise Usher and Mrs. Frances O'Connor. Other friends of the bride-elect who assisted were Mrs. J. G. S. Ramsey, Mrs. William Ayres, Mrs. Val Kohl, Misses Ella, Mabel and Isabella Mackenzie and Mrs. John Chase of Dayton.

The bride and bridegroom left in the early evening for their wedding trip. They will motor thru Yellowstone and Glacier National Parks and also tour in Canada. After a several months' trip they will be at home at Santa Monica, Cal.

Mrs. Mitchell attended the University of California, and for the past several years she has been living at home, active in the club and social circles of the city. Her many friends regret that her marriage takes her from Lima to reside. Dr. Mitchell is a graduate of the University of Southern California and later attended the U. of S. College of Dentistry.

Out-of-town guests here for the wedding were Mr. and Mrs. George Morett, Mr. and Mrs. Richard McNett, Mr. and Mrs. George Cogswell, Mr. and Mrs. Joseph Spahr, Mr. and Mrs. Frank Gedde, all of Springfield; Dr. and Mrs. John Chase, Dr. and Mrs. Frederick Chase and Mr. and Mrs. R. Bayly, of Dayton; Dr. and Mrs. Motter Pannypacker of Toledo; Mr. and Mrs. A. F. Haecker and daughter, Miss May, of St. Louis; Dr. Larry Sherry of Defiance; Mrs. Howard Horn and daughter, Joan, of Cleveland, and Mr. and Mrs. Marshall and Miss Eleanor of Beaverdam.

GOIN' HERE TODAY

Newhall, Augusta, Ga., flees after being told by Ivan, Russian violinist, he had Paul Sartre, Ishmin's son.

Ishmin and Peter's wife, had urged him to go to America. He joins Big Chief in response to a distress call giving Larson his son.

Their launch hits rocks, they receive word that her body, identified as that of a woman in Alaska. But she has been rescued by another.

He becomes completely changeable, hiding his identity.

His body is taken to Georgia.

Peter's body to Georgia, not recognizing Peter, who is dead guide. A storm carries Peter and Dorothy home.

Peter and Dorothy hunt her across a stream.

O ON WITH THE STORY

only an incident of the

it disturbed her that, as

she turned toward camp, she

got it out of her mind,

of please her that she

moved, even vaguely and

NOW YOU MAY TRY THIS GREAT MEDICINE FREE

Now Is Your Chance to Prove That Toning Up Your Liver Will End That Tired, Run-Down Feeling. Build Yourself Up! Win Back Sound Digestion, Strength and Energy—Feel Your Very Best Again!

In his private practice Dr. H. S. Thacher demonstrated that such symptoms as Indigestion, Gas on a Sour Stomach, Belching, Dizziness, Colds that Hang On, Sick-Headaches, Constipation, Pimplies, that Tired Feeling and a general Run-Down condition of the System are often the result of a Sluggish Liver—and that relief in such cases comes quickly when the Liver is properly Cleansed and Toned and the System is working normally again.

They deployed like a squad of advancing infantrymen as they neared the first alder thicket, the two Indians remaining at the extreme right and following a deeply worn bear trail, like the ruts of an old road, that conducted them easily thru the heavy barrier of brush; and Pete and Ivan seeking separate trails to the left. They were in file again when they reached the more or less open hillside, but because of greater skill at choosing the trail, the two natives were more than a hundred yards ahead of Ivan, and Pete was thirty yards farther in the rear.

At that instant Peter caught the unmistakable thumping sound of running caribou, and turning, he had a brief glimpse of a bison in the brush thicket behind.

The animal was better than two hundred yards distant when Pete glimpsed her again, running in a great arc up the hill. She made the poorest kind of a target as she leaped thru the scattered clumps of brush, but eager to procure meat as near camp as possible and perhaps slightly startled and out of hand by the animal's sudden appearance, Pete fired vainly, at every opportunity. Whether or not he hit the animal at all he could not tell, for at the fourth shot she disappeared in the thickets until it was too late.

It seemed entirely probable that the deer had swept thru the brush unseen and had fallen wounded but a few yards from Ivan. Pete started to grope for shells; Ivan peered into the brush

It seemed to the head guide that, as he paused, he could hear faintly the rustle and stir in the brush that came so distinct to Ivan; and he was not greatly surprised to see the latter draw pistol and begin to fire in evident excitement. He supposed, of course, that the man was putting the finishing touches to the fallen caribou. No blame could be laid on Pete, he did not call a warning; he did not distinguish the real identity of the creature in the thickets until it was too late.

The animal, that suddenly bounded out of the thickets, was a bear cub of that season, and it was squealing in mortal agony from the pistol lead. There was no danger in him; he was less than knee height and was desperately seeking flight. But Pete knew, and the Indians, appalled on the hill above, knew, too, that a squealing cub means an enraged mother not far off.

And in the wint of an eye the great, shaggy dog came roaring out of the thickets like an avalanche—straight toward the hapless Russian.

Fear-ridden the she was, the she-hear could not seek flight when her dying "uh" cried for help. She charged with unspeakable ferocity.

THE TANGLE

An Intimate Story of Intense Emotions Revealed in Private Letters

LETTER FROM SALLY ATHERTON TO BEATRICE GRIMSHAW, CONTINUED

My employer's mother is staying with him while Leslie is away. She is one of those awfully good women who have utterly infallible rules of conduct, and she never by any possibility thinks that her son, "who is a descendant of the John Aldens you know," could really do anything wrong. She must be kind of a nuisance to poor Leslie.

Just at present her time is taken up with talking about and hunting for a secret drawer in a lovely old desk that she herself gave Leslie for a wedding present. Wouldn't it be a scream if she should find this drawer before Leslie returns, and also find something in it that Leslie herself has put there? For if there is a secret drawer I'm sure that Leslie knows about it. You know how mad she is about old furniture, and you can make up your mind that she has gone over the old desk inch by inch.

You

CLEVELAND TAKES ENTIRE SERIES FROM WASHINGTON

INDIANS SHAKE JINX AND CONTINUE TO WIN

It was George Sisler day at St. Louis and 20,000 of the most loyal fans turned out to do him honor. He was presented with a certificate giving him titular honors as the most valuable player in the American League. He recognized the distinction with becoming dignity. It will be remembered that the same ceremonies were carried out in the Yankee stadium some time ago and Babe Ruth was equally honored. The question arises, however, just who is the most valuable player in the American League. So long as it is a toss up between Sisler and Ruth, why not make it a sort of a general house warming. Carry the ceremonies over to Boston and hand 'em out to Ty Cobb, or Harry Heilmann, and then go to Detroit and see whether or not Tris Speaker has any objection to being named in the list. But it will also be brought vividly to mind that on the Yanks once upon the St. Louis Browns turned in the world's champs one of the worst drubbings of the season, made the title look like a misnomer and Sisler hit a home run. Now gaze at this picture of old Sportsmen Park, the smallest ball yard in the American League packed with 20,000 ardent fans. The world's champs just wouldn't let the Browns make a single score. Well it's certain that the transgressor theory don't change very much.

But if something don't break soon Detroit will be up among the leaders; they're only three games behind now, and playing just as they had made up their minds to play real ball. And Cleveland has lifted the hoodoo and pitched in, in such a way as to wallop the Senators four successive games. It is a lesson to sulky ball players.

The Giants got wopped; thanks be to Kramer and Yde and Stone and Morrison, whoever is entitled to the most thanks, let's give it to him. The thanks are doubly significant because the Robins trounced the Cubs and consequently the standing of McGraw's millionaires is not improved. And Cincinnati won, because Donahue pitched a good game. And there was that Bresser and his hat again. Got a circuit swipe.

CUBS TIE THE WHITE SOX

By winning two out of three games from the White Sox at the "Y" Tuesday night, the Cubs tied with them for second place in the standing of the American-National Valley Ball league. Both teams are one full game behind the Giants, who lost two out of three to the Yanks.

Scores of the first set were: White Sox 16, Cubs 15, 15-5, and 10-15. Second set: Giants 15, Yankees 12, 14-15, and 10-15.

LEE FOHL MIGHT BE CALLED HOUDINI IF REDS CONTINUE TO WIN

If Lee Fohl continues the Boston Red Sox in the first division for a month or so longer, critics will be referring to him as the "Houdini of baseball."

Bequeathed a tall end ball club, badly lacking in reserve strength, Fohl has created much excitement after the first two months of play by having his despised Red Sox out in front.

But why the "Houdini" title?

The major league manager lays himself open to criticism every time he makes a strategic move. The second guess invariably proves that he "booted" one. So far Fohl is batting high in the league of strategy.

When his sensational rookie shortstop, Dudley Lee, was injured, Fohl had no understanding. That was problem number one. In Shanks, Ezzel and Clarke he had three third basemen, all of whom had played second, but none of the trio were familiar with the intricacies of shortstop. Ezzel, a fine fielding third sacker, was tried at short. In his first game he had four errors.

Then Fohl experimented with Shanks, who filled in very well. At third base he has been using his trio of aspirants for the success of a baseball leader.

OPEN GOLF GRIND

BY JOE WILLIAMS

THIL WALKER is the smallest player to win the open golf championship since 1908 when half-pint Freddie Melcood strode on to victory at the Meopta Hunt club. Walker is even smaller than Melcood.

The New Jersey professional weighed 122 pounds at the start of the championship. After he had run down the winning putt on the seventh green at Oakland Hills he weighed 118 pounds. In two days, then, he dropped six pounds. That gives you an idea of the terrific strain the golfer faces in the \$50,000 championship. A bigger man—a man of the Ted Ray type—would have dropped about twenty pounds.

Walker came thru mainly because he was hitting his shots well and did not have to "fight" for his scores. He was not often in trouble, and the blustery weather was of little help to him. Walker's game is built essentially on wrist action and the secret of playing in gales, such as existed at the Michigan course, is all wrist control.

This is one reason why a midget golfer was able to survive in a battle where stamina and endurance are all-important factors. Walker didn't cave in at the knees, as most of the little fellows do. The course had something to do with this. While Oakland Hills is not flat, neither is it mountainous. One doesn't need to be a human fly in order to negotiate it. On a course more hilly Walker might not have been so successful.

Another thing that helped him was the sectional qualifying in avocation, which separated the qualifying test and the championship proper into two different events. The several days' rest he got in between the two events certainly wasn't hurtful.

POMPEII LIVES AGAIN
NAPLES—The glories of ancient Pompeii were brought to life when the 700th anniversary of the Royal University of Naples was celebrated. The

ruins of the buried city were adorned with laurel wreaths and flowers, games similar to the old Olympic games were held in the amphitheatre, and at sunset the "Carmen Saeculare"—a professional hymn composed by Horace was sung by costumed choirs.

HOUSEWORK NOT DRUDGERY

For Women In Good Health

Read How Lydia E. Pinkham's Vegetable Compound Changed Conditions For These Housewives

Back Don't Bother Me Now

Lincoln, Nebraska.—"My back would bother me so and when I had to do any heavy lifting it made me sick to my stomach with the pains in my back. I have my housework to do and four babies to take care of so when I heard of Lydia E. Pinkham's Vegetable Compound I took it and I feel better. My back don't bother me and I can eat more and work. I do all my housework and washing for six in the family. I will tell other women to take the Vegetable Compound and you may publish my letter."—Mrs. CHARLES F. DOLEZAL, 1201 Garber Avenue, Lincoln, Nebraska.

Felt Better At Once

Volga City, Iowa.—"I will tell you what Lydia E. Pinkham's Vegetable Compound did for me. I was all run down and could hardly be on my feet. I was so cold I could not keep warm. I had numb feelings and then heat flashes would pass over my body. I had severe pains in my sides and was very nervous. I saw your advertisement in the newspapers so I thought I would try your medicine. My husband got me a bottle of the Vegetable Compound and I began to feel better as soon as I started taking it. I have taken it off and on for three years now. I keep house and do all my

work for my husband and two boys and make my garden. I feel fine and I tell others what the medicine has done for me. I think it is the best medicine in the world for women."—Mrs. THOMAS GRIMES, Volga City, Iowa.

Can Do Any Kind of Work

Fouke, Arkansas.—"I had a pain in my side and was not able to do any work I was so weak. I found an advertisement in a paper and it told what Lydia E. Pinkham's Vegetable Compound would do, and I took it. Now I can do any kind of work I want to. I think every family ought to keep it in the house all the time and I intend to do so."—Mrs. DORA PHILAYW, R.R. No. 2, Fouke, Arkansas.

Over 100,000 women have so far replied to our question, "Have you received benefit from taking Lydia E. Pinkham's Vegetable Compound?" 98 per cent of these replies are Yes."

This shows that 98 out of every 100 women who take this medicine for the ailments for which it is recommended are benefited by it. This goes to prove that a medicine specialized for certain definite ailments—not a cure-all—can and does good work. For sale by druggists everywhere.

No More Stock After June 14

This Date Marks the End of the Sale of The Ohio Power Company Preferred Stock

A FEW days ago we announced that we had a limited number of shares of stock unsold and that we could accept subscriptions only with the understanding that orders would be filled so long as there was stock available for sale.

The volume of subscriptions now coming in clearly indicates that all the stock available at the present time will be sold by the end of next week.

After June 14 and until such time as we may have more shares to offer, no further subscriptions can be accepted.
